It also highlights the Governance roles and accountabilities. The Program will advance the HPHA's commitment to:

- Patient safety
- Excellent quality of coordinated care programs and supportive services

The goals of the program include:

- Strengthening the culture of patient safety
- Strengthening and establishing a customer service culture
- Meeting and exceeding accepted standards of care
- Ensuring a patient services plan that reflects the health care needs of the population served
- Promoting the Alliance as a strong partner and advocate in the broader health care system
- Ensuring a robust risk management framework

Definition of Quality

Quality is best defined as the best possible experience with the best possible outcome of patient care, treatment and services, with the least risk to all stakeholders within available resources.

Dimensions of Quality

Consistent with Health Quality Ontario, the following six dimensions reflect quality within the Huron Perth Healthcare Alliance:

Elements of Quality Care		
Element	Patient meaning	Provider meaning
Safe	I will not be harmed by the health system.	The care my patient receives does not cause the patient to be harmed.
Effective	I receive the right treatment for my condition, and it contributes to improving my health.	The care I provide is based on best evidence and produces the desired outcome.
Patient centred	My goals and preferences are respected. My family and I are treated with respect and dignity.	Decisions about my patient's care reflect the goals and preferences of the patient and his or her family or caregivers.
Efficient	The care I receive from all practitioners is well coordinated and efforts are not duplicated.	I deliver care to my patients using available human, physical, and financial resources efficiently, with no waste to the system.
Timely	I know how long I have to wait to see a doctor or for tests or treatments I need and why.	My patient can receive care within an acceptable time after the need is identified.
Equitable	No matter who I am or where I live, I can access services that benefit me. I am fairly treated by the health care system.	Every individual has access to the services they need, regardless of his or her location, age, gender, or socio-economic status.

Quality Principles

The principles providing a broad foundation for Quality, Patient Safety and Risk Management include:

- The voice of the patient is the most important voice and the patient experience is equally as important as the patient's outcome

- Expectations that the Alliance has of the President & CEO;
- The evaluation and performance expectations of the President & CEO;
- Administration of the Executive Compensation Program; and
- The establishment of a President & CEO transition plan.

The Board delegates the accomplishment of these tasks as defined in the following Procedures.

Procedures

Expectations of the President & Chief Executive Officer (CEO)

The President & CEO is accountable to the Board for achieving Alliance goals and carrying out Alliance policies and decisions. The President & CEO will develop strategies for the accomplishment of these tasks and will present these strategies to the Governance & Stakeholder Relations Committee on an annual basis for Board approval. The President & CEO will also develop personal goals annually in collaboration with the Board Chair.

The President & CEO is responsible for meeting the requirements of the executive employment contract and job description. The contract agreement of April 1, 2003 will be the template for the requirements. Any changes to the template are to be presented in writing to the Governance & Stakeholder Relations Committee for recommendation for approval by the Board of Directors.

Performance Evaluation of the President & Chief Executive Officer (CEO)

The evaluation is guided by the following principles:

- To recognize strong performance;
- To identify under-performance and process improvements;
- To set clear performance objectives linked to the strategic plan, corporate plans and organizational priorities.

The performance evaluation process will occur annually and is based on five (5) key components:

1. The annual President & CEO Performance Evaluation Survey;
2. The President & CEO's annual goals and objectives;
3. The HPHA's Commitments to Our Communities;

- 2) One Board meeting a year will be conducted under the leadership of one of the two executives prepared for emergency succession.
- 3) The President & Chief Executive Officer will annually advise the Board of the executives who are in place for emergency succession.
- 4) The identification of an executive available for emergency succession does not convey any entitlement to the ongoing President & Chief Executive Officer role in the event of an emergency succession.

Planned Chief Executive Officer Succession

The Board will strike an ad hoc President & Chief Executive Officer Search Committee consisting of a minimum of three elected Board members, one of whom will be the Board Vice-Chair, the Alliance Chief of Staff and a Patient Partner.

The ad hoc President & Chief Executive Officer Search Committee will:

- 1) Be empowered by the Board within budget limitations, if deemed necessary after consultation with Human Resources, to seek out an appropriate executive search counsel following the hospital's competitive pricing policy.
- 2) Develop a consultative process for the selection of the President & Chief Executive Officer which will provide opportunity for medical staff input, staff input and external stakeholder input. The process for the search and selection of a Chief Executive Officer will be approved by the Board prior to the implementation of the search.
- 3) Bring forward to the full Board for approval, the name of a candidate for the President & Chief Executive Officer position that is supported by the Search Committee.
- 4) Establish the initial President & Chief Executive Officer contract including rates of remuneration and other benefits within a range set by the Board of Directors.

Governance Policy

Policy Name: Patient, Family and Staff Engagement
Section 3.0 – Foster Relationships
Original Issue Date: February 7, 2019
Last Revision Date: n/a

Purpose

To enhance patient experience, improve the work life of care providers, improve population health and reduce per capita cost of healthcare.

To support an engagement capable environment as outlined in the Patient, Family and Staff Experience Framework.

To create an environment where the “engagement” of staff, physicians, volunteers, patients, families and community members is encouraged.

Engagement Definition

Engagement is an approach where a broad spectrum of people with varying experiences, are motivated to contribute to organizational success and enables the conditions in which these individuals offer more of their capability and potential.

Engagement focuses on the relationship between patients, families, healthcare providers and the community as they work together to promote and support active patient and public involvement in health and healthcare and to strengthen their influence on healthcare decisions at both the individual and collective levels. Engagement occurs when people and organizations that are impacted by a decision participate in the process of making that decision.

The Carmen Framework is the guide used by the Huron Perth Healthcare Alliance (HPHA) to assess progress towards a fully engaged organization.

<https://www.healthaffairs.org/doi/full/10.1377/hlthaff.2012.1133>

Engagement Philosophy

Promoting engagement across the HPHA is consistent with the organizational values of *compassion, accountability and integrity; the Mission “Collaborating for Exceptional Care”; and the Vision “Innovating for Exceptional Health”*. It is an approach that is designed to promote trust, fairness and mutual respect that results in the empowerment and commitment of staff, physicians, volunteers, patients, families, and community partners collaborating to achieving excellence.

Creating a quality healthcare system of excellence can only be achieved if those within the system derive satisfaction and joy from what they do. Satisfaction and joy are inextricably linked not only to each other but also to improving the experience of patients, families, staff, physicians and volunteers within the HPHA and broader system of care. Intentional engagement at every

level of the organization can achieve this. <https://www.hqontario.ca/Blog/quality-improvement/finding-joy-in-work>

Levels of Engagement:

- Individual/patient level: where the patient is actively involved in their healthcare planning and decision making.
- Organizational level: where patients, families, staff, physicians, and volunteers, and leaders are engaged in the design, development and evaluation of healthcare programs and activities
- System level: where patients, families, staff, physicians, and internal and external leaders are engaged in policy development and strategic planning targeted at improving the system of care.

Value of Engagement

- Patients engaged in their health will aid in the management of their chronic diseases, improving their quality of life and reducing healthcare costs.
- Creates an environment where patients, families, volunteers and hospital staff work together as partners to improve quality and safety of hospital and system care.
- Improving hospital/system performance; including safer transfer of information at transitions, enhanced medication management, improved infection control initiatives, observation of care processes, improved patient outcomes, reduction of complications, reduced lengths of stay, and reduction of waste.
- Reducing number of patient and family complaints.
- Engaged employees experience a positive emotional state and better health at work which leads them to improve personal resources and contribute to organizational performance.
- Highly engaged employees transfer their enthusiasm to other employees at work creating an overall healthy work environment and better performance outcomes.
- Engaged employees contribute to a positive employee experience which leads to a positive patient/family experience.
- It is the right thing to do.

Principles of Engagement:

At a broad level, engagement is a process that brings people together, either in person or virtually, to support decision making.

Together, these partnerships will:

1. Be founded on common understandings and be non-judgmental;
2. Have a deep commitment to respect, dignity and leverage the differences among partners;
3. Recognise the Quadruple Aim will be achieved through the engagement of patients, families (Patient Partners), caregivers and leaders at all levels.
<https://www.hqontario.ca/Blog/quality-improvement/the-next-step-for-better-quality-care>;
4. Realize person-centeredness takes place across all levels and works to ensure that the motto "*Nothing about me, without me,*" is respected and realized;
5. Recognize engagement needs to work for patients, families, caregivers and staff.
6. Include mutual knowledge sharing and exchange for the mutual benefit of all parties;
7. Foster meaningful change to achieve individual, community and system goals;
8. Be driven by patient, family, caregiver and staff experiences;

9. Use co-design techniques that actively involve all stakeholders (employees, patients, families, caregivers, providers, leaders, citizens, and health-sector organizations) in the design process to help ensure the results meet their needs and are usable;
10. Measure progress by what has been demonstrated and achieved.

Governance Policy

Policy Name: Governance Accountability
Section 4.0 – Ensure Board Effectiveness
Original Issue Date: December 2003
Last Revision Date: June 7, 2018

Governance Philosophy

The Board of Directors of the Huron Perth Healthcare Alliance is entrusted with the stewardship of considerable community resources to provide health care services.

The Board of Directors recognizes its responsibility to develop and maintain healthy relationships among key constituencies, especially the health care providers of Huron & Perth. It provides a link for the community to the Alliance and the Alliance to the community, receiving and disseminating information to ensure the optimization of quality, accessibility, and coordination of each patient's care. It promotes and supports the Huron Perth Healthcare Alliance as an avenue for maximizing the efficiency and effectiveness of the use of scarce health care resources.

The Board of Directors honours the long-standing traditions and culture of the organizations it represents but, at the same time, embraces the changing health care environment to ensure that the corporation's business is conducted in a way that reflects the Alliance's Mission. It strives to rise above politics and economics in following this Mission.

Governing Style

In the spirit of forward-looking pro-active strategic leadership, the Board will:

1. Focus chiefly on broader long term issues, not on the administrative or programmatic means to obtaining those ends.
2. Direct, control and inspire the Alliance through the careful establishment of the broadest organizational values and policies. Policies will address:
 - a) **Ends** - what benefits, for which needs, at what costs;
 - b) **Executive Limitations** - the boundaries of prudence and ethics to be observed by the staff;
 - c) **Governance Process** - Board roles and responsibilities; and
 - d) **Board/Physician/Staff Relationships** - linkages between the Board, physicians and staff.
3. Enforce upon itself whatever guidelines are needed to govern with excellence and with minimal risk to the organization. The following guidelines will apply to:
 - a) ensuring acceptable attendance at Board and Committee meetings;
 - b) adhering to policy-making principles;
 - c) working together with fellow Board members, physicians and staff in an atmosphere of mutual respect;
 - d) conducting "no surprise" meetings, i.e., giving fellow Board members, physicians, and staff adequate opportunity to prepare data and responses to difficult or contentious issues;

- e) speaking with "one voice", i.e., supporting Board decisions which are made by a democratic process, even though the individual may not have personally supported the decision in the voting process;
 - f) self-policing any tendency to stray from rigorous governance; and
 - g) agreeing to place the good of the Alliance in the decision-making process before the interests of the group that appointed the member to the Board of Directors.
4. Be accountable for competent, conscientious and effective accomplishment of its obligations as a body. No officer, individual or Committee of the Board will usurp this role or hinder this discipline.
 5. Monitor and discuss regularly its own process and performance to ensure the continuity of Board improvements and the ability of members to govern. This will include each member completing an annual Board Evaluation questionnaire and attendance at the Annual Retreat.

Roles & Responsibilities of the Board

All Not-For-Profit Boards have their responsibilities, duties and liabilities outlined in law (see By-Laws). Specific areas to consider include, but are not limited to:

- Corporations Act
- Public Hospitals Act
- Common Law governing the Hospital
- The Articles of Incorporation and By-Laws of the Hospital

Regardless of legal requirements of Boards, the roles and responsibilities of the Board of Directors can be split into ten (10) main areas as follows:

- Determining the organization's Mission, Vision and Values.
- Participating in the selection of the President & Chief Executive Officer.
- Supporting the President & Chief Executive Officer and members of the Leadership Team and participating in the review of their performance.
- Ensuring the implementation of effective organizational planning.
- Ensuring that adequate resources are allocated to meet the Mission, Vision and Values.
- Managing resources effectively through preparation of the Annual Operating Plan.
- Determining and monitoring the organization's programs and services and ensuring that they are consistent with the Alliance's Vision.
- Enhancing the organization's public image.
- Serving as a Court of Appeal.
- assessing its own performance.

In addressing each of these roles and responsibilities, the Board of Directors must recognize the difference between GOVERNING and MANAGING. Although the distinction is at times ambiguous, the general rule of thumb is that Governance looks outwards to the community while Management deals internally with the organization.

Roles & Responsibilities of Individual Board Members

The responsibilities of the individual Board members include:

General:

- Have a good understanding of the structure of the Alliance, the roles of the various sites, and how the sites relate to the other healthcare providers in the Alliance's catchment area;
- Take leadership roles, special assignments willingly and enthusiastically;
- Follow Board policies and adhere to the Board member roles and responsibilities and code of conduct;
- Bring a sense of humour to the Board's deliberations;
- Exercise the utmost good faith in all dealings with and for the organization and be prepared to prove good faith if necessary;
- Suggest suitable nominees for Board membership; and
- Follow trends in the organization's field of interest.

Meetings:

- Prepare for and participate in meetings fully; if meetings must be missed, be certain that a valid reason has been conveyed to the Committee Chair or Administration;
- Ensure that meeting minutes accurately reflect the business conducts and the decisions made;
- Register dissent when in major disagreement with Board action; be certain that it is made a matter of record in the minutes of the meeting;
- Ask timely and substantive questions consistent with your conscience and convictions, while supporting the majority decision;
- Maintain confidentiality, and speak for the Board or organization only when authorized to do so; and
- Suggest agenda items to address policy-related issues.

Relationship with Staff:

- Support and guide the President & Chief Executive Officer; and
- Avoid asking special favours of staff without prior consultation with the President & Chief Executive Officer, Board, or appropriate Committee Chairperson.

Avoid Conflicts:

- Serve the organization as a whole rather than any special constituency;
- Avoid any appearance of conflict that might embarrass the Board, and declare any possible conflicts to the Board in a timely fashion;
- Maintain independence, objectivity, sense of fairness, and ethical and personal integrity; and
- Never accept (or offer) gifts from or favours to those who do business with the organization.

Fiduciary Responsibilities:

- Exercise prudence with the Board regarding finances;
- Faithfully read and understand the organization's financial statements; and
- Assure complete and accurate disclosure of details of financial transactions.

Liability Issues for Board Members:

- By carefully following the roles and responsibilities guidelines, a Board member can minimize personal liability and protect against successful litigation by avoiding certain conduct that might be the basis of a suit and by ensuring that adequate records of decision-making are kept.

Board Objectives

1. Structure Board meetings to allow adequate time for discussion.
2. Strengthen our relationship with the other healthcare Boards throughout Huron and Perth.
3. Maintain a corporate Governance Manual to clearly define Board and individual responsibilities.
4. Develop outreach programs with other providers of services to increase Board awareness of their respective roles.
5. Review credentialing processes of the Alliance.
6. Increase Board quality processes (i.e., Board evaluations) and continuous monitoring of our performance to support accreditation processes, etc., through the Quality Committee.
7. Hold regular Board Advances to allow for focused discussion on key strategic issues.
8. Keep aware of human relation issues in the Alliance through regular reports presented at meetings of the Resources & Audit Committee and, ultimately, the Board.
9. Encourage more visibility by the Board at general staff activities during the year.
10. Examine ways and means of improving accountability to the various communities we serve in the region through development of a variety of feedback mechanisms.

Last Revision Date: June 7, 2018, February 1, 2024

Purpose

The Huron Perth Healthcare Alliance (HPHA) Board of Directors is committed to ensuring that in all aspects of its affairs it maintains the highest standards of public trust and integrity.

The Code of Conduct applies to all directors, including ex-officio directors, and non-director Board Committee members. All directors and non-director Board Committee members will complete the Annual Director Declaration and Consent to confirm their commitment and compliance with this code of conduct.

Policy

Fiduciary Duty and Duty of Care

As a fiduciary of the Corporation, a director acts honestly and in good faith with a view to the best interests of the Corporation, and exercises the care, diligence, and skill that a reasonably prudent person would exercise in comparable circumstances. In so doing, a director supports the Corporation in fulfilling its mission and discharging its responsibilities. All directors, including ex-officio directors, are held to the same duties and standard of care.

A director does not represent the specific interests of any constituency or group. A director acts and makes decisions that are in the best interests of the Corporation as a whole.

Exercise of Authority

A director carries out the powers of office only when acting during a duly constituted meeting of the Board or one of its committees. A director respects the responsibilities delegated by the Board to the President & Chief Executive Officer, avoiding interference with their duties but insisting upon accountability to the Board and reporting mechanisms for assessing organizational performance.

A director adheres to the Values, Mission & Vision of the Corporation, applicable law, the Hospital by-laws, and Board-approved policies.

Conflict of Interest

Every director, including ex-officio directors and non-director Board Committee members, must comply with the conflict of interest provisions in the *Not-for-Profit Corporations Act, 2010* (the “Act”), the Hospital by-laws, and Board-approved policies.

Confidentiality

Every director, including ex-officio directors and non-director Board Committee members, must respect the confidentiality of the information of the Corporation, including matters brought before

the Board and Board committees, keeping in mind that unauthorized disclosure or use of information could adversely affect the interests of the Corporation. Directors shall not disclose or use for their own purpose confidential information concerning the activities and affairs of the Corporation unless otherwise authorized by the Board. It is recognized that the role of a director may include representing the Corporation in the community. However, such representation must be respectful of and consistent with the director's duty of confidentiality.

Board Solidarity and Director Dissent

Every director, including ex-officio directors and non-director Board Committee members, support the decisions of the Board in discussions with persons beyond the Board/Board Committee, even if the individual holds another view or voiced another view during a Board/Board Committee discussion or was absent from the Board/Board committee meeting. In accordance with the Act, an individual who is present at a Board/Board committee meeting is deemed to have consented to any resolution passed or action taken at the meeting, unless:

- (a) the individual's dissent is entered in the meeting minutes;
- (b) the individual requests that their dissent be entered in the meeting minutes;
- (c) the individual gives their dissent to the secretary of the meeting before the meeting is terminated; or
- (d) the individual submits their written dissent to the secretary immediately after the meeting is terminated.

An individual who votes for or consents to a resolution is not entitled to dissent.

An individual who was not present at a meeting at which a resolution was passed or action taken is deemed to have consented to the resolution or action unless within seven days after becoming aware of the resolution, the individual:

- (a) causes their written dissent to be placed with the meeting minutes; or
- (b) submits their written dissent to the secretary.

Board Spokesperson

The Board Chair shall be the spokesperson for the Board. The President and Chief Executive Officer or the Chief of Staff or their designate, may speak on behalf of the Corporation. News media responses and public discussion of the Corporation's activities and affairs should only be made through the Board's authorized spokespersons. Any individual who is questioned by news reporters or other media representatives should refer such individuals to the appropriate representatives of the Corporation.

Respectful Conduct

It is recognized that directors, including ex-officio directors and non-director Board Committee members, bring diverse backgrounds, skills and experience to the Board and its Committees. Directors will not always agree with one another on all issues. All debates shall take place in an atmosphere of mutual respect and courtesy. The authority of the Chair must be respected by all directors.

Time and Commitment

Directors, including ex-officio directors and non-director Board Committee members, are expected to commit the necessary time required to fulfill Board/Board committee responsibilities, including preparation for and attendance at meetings, as well as attendance at the Corporation's public events when possible.

Participation

A director expects to receive relevant information in advance of meetings, reviews pre-circulated material, comes prepared to Board and Board Committee meetings, asks informed questions and makes a constructive contribution to discussions.

Education

Directors, including ex-officio directors and non-director Board Committee members, are expected to seek opportunities to be educated and informed about the Corporation and the key issues related to the Corporation and the healthcare system through participation to include orientation and ongoing education.

Evaluation

Directors, including ex-officio directors and non-director Board Committee members, participate in the evaluation of the performance of the Board/Board Committee and of their own performance as members.

Governance Policy

Policy Name: Conflict of Interest
Section 4.0 – Ensure Board Effectiveness
Original Issue Date: December 2013
Last Revision Date: June 7, 2018, February 1, 2024

Purpose

All directors have a duty to ensure that the integrity of the decision-making processes of the Board of Directors (The “Board”) are maintained by ensuring that they and other directors are free from conflict or potential conflict in their decision-making. It is inherent in a director’s fiduciary duty that conflicts of interest be avoided. It is important that all directors and officers understand their obligations when a conflict of interest or potential conflict of interest arises.

The Conflict of Interest policy applies to all directors, include ex-officio directors, officers, and non-director Board Committee members.

“Officers” means officers appointed by the Board under the *Not-for-Profit Corporations Act, 2010* (the “Act”) and the by-laws, including:

- Chair
- Vice Chair
- Treasurer

Policy

Directors, officers, and non-director Board Committee members shall avoid situations in which they may be in a position of a conflict of interest or perceived conflict of interest. In addition to the conflict of interest provisions in the Act and the by-laws, which must be strictly adhered to, the process set out in this policy shall be followed when a conflict or potential conflict arises.

Description of Conflict of Interest

A conflict of interest arises in any situation where a director's duty to act solely in the best interests of the Corporation and to adhere to their fiduciary duties is compromised or impeded by any other interest, relationship, or duty of the director. A conflict of interest also includes circumstances where the director's duties to the Corporation are in conflict with other duties owed by the director such that the director is not able to fully discharge the fiduciary duties owed to the Corporation.

The situations in which a potential conflict of interest may arise cannot be exhaustively set out. Conflicts generally arise in the following situations:

- 1) Transacting with the Corporation
 - When a director transacts with the Corporation directly or indirectly.
 - When a director has a material direct or indirect interest in a transaction or contract with the Corporation.
- 2) Interest of a Relative

When the Corporation conducts business with suppliers of goods or services or any other party of which a relative or member of the household of a director is a principal, officer, or representative.

3) Gifts

When a director or a member of the director's household or any other person or entity designated by the director, accepts gifts, payments, services, or anything else of more than a token or nominal value from a party with whom the Corporation may transact business (including a supplier of goods or services) for the purposes of (or that may be perceived to be for the purposes of) influencing an act or decision of the Board.

4) Acting for an Improper Purpose

When directors exercise their powers motivated by self-interest or other improper purposes. Directors must act solely in the best interest of the Corporation. Directors who are nominees of a particular group must act in the best interest of the Corporation even if this conflicts with the interests of the nominating party.

5) Appropriation of Corporate Opportunity

When a director diverts to their own use, an opportunity or advantage that belongs to the Corporation.

6) Duty to Disclose Information of Value to the Corporation

When directors fail to disclose information that is relevant to a vital aspect of the Corporation's affairs.

7) Serving on Other Corporations

A director may be in a position where there is a conflict of "duty and duty". This may arise where the director serves as a director of two corporations that are competing or transacting with one another. It may also arise where a director has an association or relationship with another entity. For example, if two corporations are both seeking to take advantage of the same opportunity, a director may be in possession of confidential information received in one boardroom or related to the matter that is of importance to a decision being made in the other boardroom. The director cannot discharge the duty to maintain such information in confidence while at the same time discharging the duty to make disclosure. The director cannot act to advance any interests other than those of the Corporation.

Process for Resolution of Conflict Addressing Breaches of Duty

Disclosure of Conflicts

A director, officer, or non-director Board Committee member who is in a position of conflict or potential conflict, shall immediately disclose such conflict to the Board by notification to the Board Chair or Vice Chair. Where the Chair has a conflict, notice shall be given to the Vice Chair. A non-director Board Committee member, who is in a position of conflict or potential conflict, shall immediately disclose such conflict to the Board by notification to the Committee Chair. The disclosure shall be sufficient to disclose the nature and extent of the interest. Disclosure shall be made at the earliest possible time and, where possible, prior to any discussion and vote on the matter.

- The disclosure must be made, at a minimum, in the case of a director:

- at the meeting where a matter in which the director has a conflict is first considered;
 - if the director was not then interested in a matter, at the first meeting after the director becomes so interested;
 - if the director becomes interested after a matter has been approved, at the first meeting after the director becomes so interested; or
 - if an individual who has a conflict in a matter later becomes a director, at the first meeting after the individual becomes a director.
- The disclosure must be made, at a minimum, in the case of an officer:
 - forthwith after the officer becomes aware that a matter in which the officer has a conflict is to be considered or has been considered by the Board;
 - if the officer becomes interested after a matter has been approved by the Board, forthwith after the officer becomes so interested; or
 - if an individual who has a conflict in a matter later becomes an officer, forthwith after the individual becomes an officer.
 - The disclosure must be made, at a minimum, in the case of a non-director Board Committee member:
 - at the committee meeting where a matter in which the Board Committee member has a conflict is first considered;
 - if the Board Committee member was not then interested in a matter, at the first committee meeting after the Board Committee member becomes so interested;
 - if the Board Committee member becomes interested after a matter has been approved, at the first committee meeting after the Board Committee member becomes so interested;
 - if an individual who has a conflict in a matter later becomes a Board Committee member, at the first committee meeting after the individual becomes a Board Committee member.
 - If a director or officer has a conflict of interest in a matter that, in the ordinary course of the Corporation's business, would not require approval of the Board or members, the director or officer shall disclose the conflict of interest to the Board Chair or Vice Chair, or request to have entered in the minutes of Board meetings, the nature and extent of their interest forthwith after the director or officer becomes aware of the matter.

Continuing Disclosure

A director, officer, or non-director Board Committee member may provide a general notice to the Board disclosing their relationships and interests in entities or persons that give rise to conflicts.

Leave the Meeting and Do Not Vote

A director, officer, or non-director Board Committee member who has declared a conflict shall not attend any part of a meeting during which the matter in which they have a conflict is discussed, and shall not vote on any resolution to approve the matter.

Exceptions are made if the matter relates to a contract or transaction for indemnity or insurance under section 46 of the Act.

Referral

A director may be referred to the process outlined below where any director believes that they or another director:

- a) has breached their duties to the Corporation;
- b) is in a position where there is a potential breach of duty to the Corporation;
- c) is in a situation of actual or potential conflict of interest; or
- d) has behaved or is likely to behave in a manner that is not consistent with the highest standards of trust and integrity and such behaviour may have an adverse impact on the Corporation.

Process for Resolution

- a) The matter shall be referred to the Chair or where the issue may involve the Chair, to the vice Chair, with notice to the chief executive officer.
- b) The Chair (or vice Chair, as the case may be) may either:
 - (i) attempt to resolve the matter informally; or
 - (ii) refer the matter to either the executive committee or to a special committee of the Board established by the Chair (or vice Chair, as the case may be) which shall report to the Board.
- c) If the Chair or vice Chair elects to attempt to resolve the matter informally and the matter cannot be resolved to the satisfaction of the Chair (or vice Chair as the case may be), the directors referring the matter, and the director involved, then the Chair or vice Chair shall refer the matter to the process in (b) (ii) above.
- d) A decision of the Board by majority resolution shall be determinative of the matter.

It is recognized that if a conflict or other matter referred cannot be resolved to the satisfaction of the Board (by simple majority resolution) or if a breach of duty has occurred, a director may be asked to resign or may be subject to removal pursuant to the by-laws and the Act.

Perceived Conflicts

It is acknowledged that not all conflicts or potential conflicts may be satisfactorily resolved by strict compliance with the by-laws. There may be cases where the perception of a conflict of interest or breach of duty (even where no conflict exists or breach has occurred) may be harmful to the Corporation notwithstanding that there has been compliance with the by-laws. In such circumstances, the process set out in this policy for addressing conflicts and breaches of duty shall be followed.

It is recognized that the perception of a conflict or breach of duty may be harmful to the Corporation even where no conflict exists or breach has occurred and it may be in the best interests of the Corporation that the director or non-director Board Committee member be asked to resign.

- To ensure agendas are structured to align with the Board's Work Plan and the Strategic Directions of the organization, as approved by the Board from time to time.

Policy

The Board elects to use a Consent Agenda for Board of Director meetings, streamlining the process for approval of regular, routine issues that come to the Board, allowing more time for education, decision-making and focused strategic discussion. A Consent Agenda groups the routine, procedural and non-controversial items not requiring discussion or independent action as one agenda item.

- Consent Agenda items may include, but are not limited to:
 - Approval of previous minutes;
 - Routine reports from the Chief of Staff, Chief Nursing Executive and President & Chief Executive Officer (CEO);

1. The Chair, in consultation with the President & Chief Executive Officer will develop the agenda for each Board meeting.
2. Consent Agenda Items and supporting documents will be clearly identified, included in the meeting package and provided to members in sufficient time to be read prior to the meeting.

3. The Board Agenda will be approved by the Board at the beginning of each meeting. Members may request that items be added, deleted or that the order of items be moved. The Chair shall make a decision on each request.
4. If it is determined that an item on the consent portion of the agenda requires discussion, action or a decision, Board members will have the opportunity at the Board Meeting, upon review of the agenda, to request any items from the Consent Agenda to be removed and placed on the regular agenda.
5. Items requiring a decision that are expected to require no discussion or debate may, at the Chair's option, be placed on the Consent Agenda.

The HPHA Board of Directors will receive the Meeting Notice and link to the Board Portal to access the agenda packages for the open and in-camera meetings at least five days prior to the scheduled meeting. The agenda for the open board meeting will be posted on the Hospital's website.

Governance Policy

Policy Name: Hospital Board Proceedings
Section 4.0 – Ensure Board Effectiveness
Original Issue Date: June 7, 2018
Last Revision Date: n/a

Policy Statement

The Board of Directors (the “Board”) of Huron Perth Healthcare Alliance (the “Alliance”) will from time to time hold hearings under the *Public Hospitals Act* (the “PHA”) or the Alliance’s By-Law (the “By-Law”) to determine the privileges of Professional Staff members. The Board is committed to securing the just, most expeditious and cost effective determination of every privileges proceeding before it on its merits. The Board is authorized under the *Statutory Powers Procedure Act* (the “SPPA”) to establish Rules of Procedure governing the practice and procedure before it, including Rules for the holding of written hearings and motions. The SPPA grants certain procedural rights to parties to proceedings before administrative tribunals in Ontario.

Rules of Procedure for Board Hearings

In order to implement the above Policy Statement, the Board has established *Rules of Procedure for Board Hearings* (the “Rules”) governing the practice and procedure before it for privileges hearings required by the PHA or granted under the By-Law. Although the SPPA only applies to hearings “required by law” (i.e., by the PHA), the Board has freely adopted the SPPA (and the Rules) to govern all privileges proceedings before it.

The Rules provide for both written and oral hearings. The Rules provides for the possibility of presumption for written hearings in respect of all Applications for Appointment, unless a party can satisfy the Board that that there is a good reason for not holding a written hearing (e.g., where extraordinary and exceptional circumstances exist in the nature of systemic or recurring issues affecting the Alliance). The principles governing the presumption of written hearings are set out in the Rules and include (a) the Alliance’s mandate to maximize the allocation of its scarce resources to the provision of healthcare, and (b) the extensive pre-hearing procedural rights and post-hearing appeal rights granted to Professional Staff members under the By-Law and the PHA.

The Rules are established under the authority of Section 25.1 of the SPPA and will be liberally construed in accordance with the Policy Statement above to secure the just, most expeditious and cost-effective determination of every privileges proceeding on its merits. The Rules may be of general or particular application and may be amended from time to time by the Board. The Rules are to be read in conjunction with the By-Law, the PHA, and the SPPA. In case of any inconsistency, the order of paramountcy is the PHA, the SPPA, the By-Law and the Rules.

- (a) An oral hearing shall be open to the public except where the Tribunal is of the opinion that intimate financial or personal matters or other matters may be disclosed at the hearing of such a nature, having regard to the circumstances, that the desirability of avoiding disclosure thereof in the interests of any person affected or in the public interest outweighs the desirability of adhering to the principle that hearings be open to the public, in which case the Tribunal may hold the hearing in the absence of the public.¹¹

- (b) Despite Rule 14.1(a), the Tribunal shall issue a written final decision and reasons for decision, which shall be the official decision of the Tribunal.
- (c) No member of the Tribunal shall participate in a decision of the Tribunal pursuant to a hearing unless he/she was present throughout the hearing and heard the evidence and argument of the parties and, except with the consent of the parties, no decision of the Tribunal shall be given unless all members so present participate in the decision.¹⁸

14.3 EFFECTIVE DATE OF DECISION OR ORDER

A Tribunal decision or order shall be effective from the date on which it was signed or such other date as may be specified in the decision or order.

14.4 ELECTION UNDER SECTION 25(1) OF THE *SPPA*

The Tribunal shall specify in every decision and order, whether procedural or substantive, interim or final, whether its decision or order is effective immediately or is stayed in the event the Professional Staff member appeals the decision to the Appeal Board. If the Tribunal fails to specify, either party may move under Rule 15 to require the Tribunal to specify, and the Tribunal shall so specify forthwith. The Tribunal's specification under this Rule 14.4 shall determine whether the Board "orders otherwise" under section 25(1) of the *SPPA*.¹⁹

Governance Policy

Policy Name: Corporate Code of Business Ethics
Section 5.0 – Financial Viability
Original Issue Date: Fall 2008
Last Revision Date: Spring 2018, June 7, 2018

The Huron Perth Healthcare Alliance (HPHA) Code of Business Ethics describes the behaviour that is to be exhibited by all those to whom the Code applies. The following principles govern this behaviour at the HPHA:

We obey the law.

At the HPHA, we obey all applicable laws. However, you are expected to be aware of and follow laws that affect the way you do your job. If you have any questions about legal issues affecting your job, you should refer them to your supervisor or to the Vice President, People & Chief Quality Executive at 519-272-8206.

We behave in a way that is appropriate for charitable organizations.

As charitable tax-exempt organizations, we have a legal and ethical obligation to use our resources in a way that promotes the public good rather than the private or personal interests of any individual or group. Therefore, we ensure our compensation arrangements are competitive, fair and aligned with our mission, vision and values, we accurately report payments to appropriate taxing authorities, and file all tax and information returns consistent with applicable laws.

HPHA is organized and operated exclusively for charitable purposes to serve the healthcare needs of the communities, and therefore it is exempt from the payment of federal or provincial income tax. All of its assets are used exclusively to further the HPHA's charitable purposes. Such assets may not be used to benefit any individual or person who is in a position to exercise influence over the business concerns of the HPHA. Political contributions by individuals should not be made in the name of HPHA.

We are honest in our communications and business relationships.

You are expected to be honest in your communication with patients and families, attorneys, staff members, auditors and with all of those with whom we do business.

You are expected to be honest and accurate in coding for services rendered, filing claims for reimbursement, and in seeking payment for services. If you have any responsibilities in this area, it is expected that you will be absolutely honest and accurate in submitting claims and bills.

The HPHA's financial records are expected to accurately describe and fully reflect all HPHA transactions in accordance with Public Sector Accounting Board and other industry accounting standards.

We do not offer financial inducements.

You shall not offer any financial inducement, gift, payoff, kickback, or bribe to induce, influence, or reward favorable decisions of any government personnel or representative, any customer, contractor, or vendor in a commercial transaction, or any person in a position to benefit the HPHA or other staff members in any way. Gifts of any substantial value should not be accepted from those with whom we do business. You are strictly prohibited from engaging in any corrupt business practice either directly or indirectly.

We provide you with assets to make your job more efficient.

We will make available to you assets and equipment necessary to conduct our business including such items as computer hardware and software, including internet and external email (outlook) access where appropriate, office supplies, and various types of medical equipment. You are required to use these assets in a prudent, appropriate and effective manner. Our property should not be used for personal reasons or be removed from the HPHA without approval from a department manager.

We respect confidentiality and privacy.

In the course of your job, you may have access to confidential information about patients and families, your co-workers, or business practices of the HPHA. You are expected to keep this information confidential and not discuss it with anyone without prior authorization. The HPHA has a comprehensive personal health information privacy program to comply with the provincial Personal Health Information Protection Act (PHIPA-November 2004).

We do what is right for the organization when entering into agreements.

A conflict of interest may occur if your outside activities, personal financial interests, or other personal interests influence or appear to influence your ability to make objective decisions in the course of your job responsibilities. You are obligated to ensure you remain free of conflicts of interest in the performance of your job. Board members, senior management, and other individuals with applicable decision making authority are required to disclose actual and potential conflicts related to decisions that arise during the year. All actual and potential conflicts will be reviewed and appropriate actions taken.

We promote a workplace that is safe and free of discrimination or harassment.

At the HPHA you can expect to be treated respectfully, fairly and equitably without regard to race, color, religion, age, sex, ethnic origin, disability, sexual orientation or any other protected status. This applies to hiring and other human resource practices, and to the way we treat each other on a daily basis. We also expect that you will treat our patients and families, your co-workers and everyone else with whom you come in contact at work in this same way.

The HPHA will conform with all applicable laws and regulations pertaining to workplace health and safety and we expect our staff, physicians and volunteers to comply with our policies to protect their own health and safety.

We do not tolerate any form of harassment. This includes disruptive behavior or threats, derogatory comments and sexual harassment.

We respect the environment.

The HPHA is subject to many legal requirements under a variety of environmental laws concerning the handling, release, reporting, transporting and disposal of hazardous materials and wastes. If you handle or are responsible for hazardous materials or waste, you must be knowledgeable about these materials and the environmental regulations affecting them.

In addition, we respect our environment and conserve natural resources. Therefore, it is important that you use resources appropriately and efficiently, recycle where possible, and dispose of all waste in accordance with applicable laws and regulations.

In summary. . .

These principles form the basis for our commitment to ethical behavior that complies with all legal requirements. However, we cannot include in this document every legal or ethical issue that may arise. You must also use your own judgment.

If you have a concern about a legal or ethical issue, please seek advice from your supervisor, or senior management if a satisfactory response is not received.
